

Pet-Get

...

Ben Williams, Hunter Haskins, Michael Crozier

Welcome to PetGet!

PetGet is the best way to find a local pet to join your family!
View all the different pets we have and adopt one today!

[View Pets](#)

Dogs

We let the dogs out! You, you, you! Come let a dog out into your loving arms with adoption!

[View Dogs](#)

Snakes

Snakes love to eat, just like you! Slither into adoption with one of the bests pets there is!

[View Snakes](#)

Cats

Hamsters

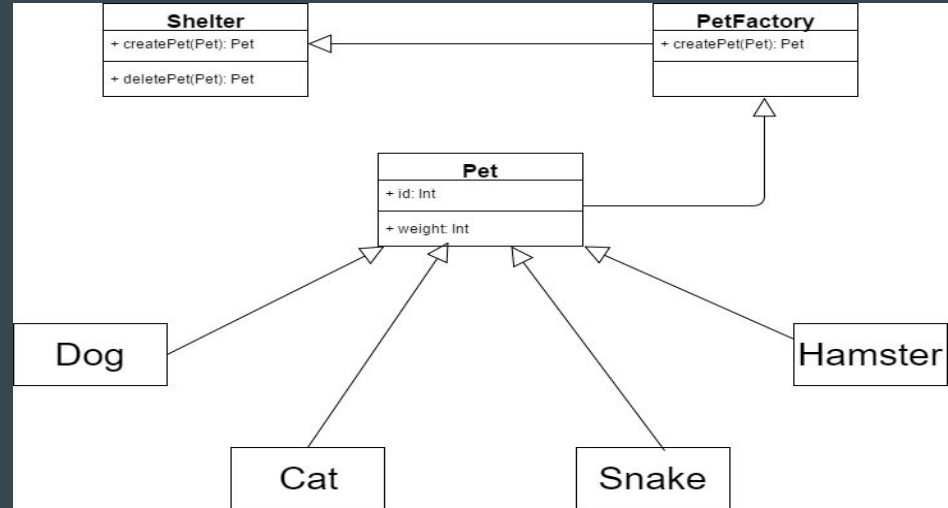

Overview

- PetGet is a service where you can adopt pets of many kinds, or you can put your own pets up for adoption
- The interface is handled using spark

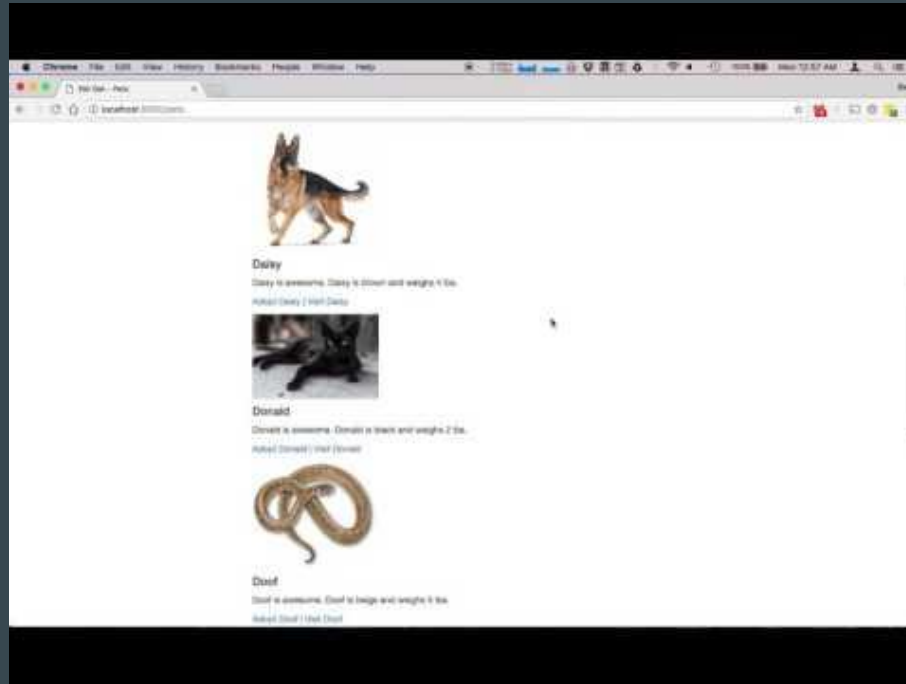

Overview - continued

- PetGet stores all of the animal info in a mySQL database
- A factory design pattern was implemented for the creation of pets within the system

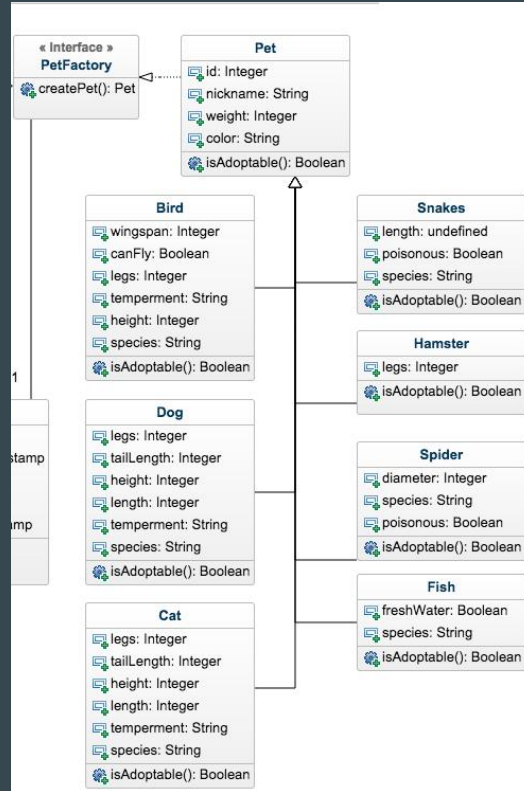

Demo

https://www.youtube.com/watch?v=_RaX1kOwVRy

The Factory Design Pattern

What went wrong

Templating issues with json and handlebars

HTTP POST data

Had to do manual DB queries

Didn't get all our use cases

```
